

## Christina Fabian Pius

I am an assistant lecturer in environmental chemistry at Mkwawa University of Education, a constituent college of University of Dar es Salaam. I graduated with Masters of science Chemistry (MSc Chemistry) and Bachelor of Science with Education (BSc Ed) from the University of Dar es Salaam. Currently, I am undertaking Ph.D. in Environmental chemistry at the University of Botswana, research titled **Analysis dioxins,**

**furans, and dl-PCBs and their implications on public health: a case of Pugu dumpsite and Msimbazi River in Dar es salaam Tanzania**

My research interest is the application of GCXGC-TOFMS, and other analytical techniques for analysis of organic pollutants in soil, sediments and food matrixes to establish their exposure to human and the environment,
