

Mr. Richard Paul Clement is an Assistant Lecturer at Mkwawa University College of Education in Iringa, Tanzania. He is based in the Department of Chemistry specializing in Organic Chemistry particularly in Phytochemistry. In the year 2013 he completed his three-year Phytochemical Investigations and Biological Analyses on *Launaea cornuta* at the University of Dar es Salaam Tanzania. Richard's research interest includes Phytochemistry, Heath and Biomedical Sciences. He holds a Master of Science (Marine Sciences) and Bachelor of Science (Chemistry & Biology) with Education from the University of Dar es Salaam, Tanzania. He has experience in Teaching Organic Chemistry, Instrumental Methods in Analytical Chemistry, Coordination Chemistry courses and Coordinating Chemistry Practical Courses. Before joining the University teaching, Richard worked as Secondary School Teacher, teaching Science Subjects at Merriwa Secondary School and Jubilee High School in Dodoma, Tanzania.
